Leader of Orientation team - Go Google Project at RMIT International University Vietnam
(September 2008 - November 2008 (3 months))
Duties:
- RMIT's email system was migrated from Microsoft Exchange to Google Mail service for education. The transformation was huge and time budget was critical. We were successful in testing new service and decided to deploy new system within semester 3-2011. Orientation team included 34 students from Saigon South campus and 6 from Hanoi campus. I had been assigned as leader of Saigon South campus's Orientation team to provide instruction to students who are not familiar with Gmail and other Google Apps. This experience strengthened my tele-communication and management skills to advanced level.
